PAPER NUMBER

2824

DATE MAILED: 08/18/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Response to Rule 312 Communication</b>	<b>Application No.</b>	<b>Applicant(s)</b>	
	10/808,513	SCHWEICKERT ET AL.	
	<b>Examiner</b>	<b>Art Unit</b>	
	Jung (John) Hur	2824	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

1. ☒ The amendment filed on 26 June 2006 under 37 CFR 1.312 has been considered, and has been:
- a) ☐ entered.
  - b) ☐ entered as directed to matters of form not affecting the scope of the invention.
  - c) ☐ disapproved because the amendment was filed after the payment of the issue fee.  
Any amendment filed after the date the issue fee is paid must be accompanied by a petition under 37 CFR 1.313(c)(1) and the required fee to withdraw the application from issue.
  - d) ☒ disapproved. See explanation below.
  - e) ☐ entered in part. See explanation below.

*The amendment has been considered, but has been disapproved because it is deemed to be affecting the scope of the claims and/or the invention. The changes in the amendment deemed to be affecting the scope are as follows:*

*– in amended claim 1, the replacement of "system" with "device" and the replacement of "perform a threshold comparison and generating an output sense signal indicative of a polarization state of the charge-storing device" with "output a differential positive or negative signal which is converted to a digital logic level indicative of the polarization state of the charge-storing device depending on the sign of the differential sense signal"*

*– in amended claim 10, the replacement of "perform a threshold comparison and generating an output sense signal indicative of a polarization state of a selected charge-storing device connected therewith" with "output a differential positive or negative sense signal which is converted to a digital logic level indicative of a polarization state of the charge-storing devices depending on the sign of the differential sense signal"*

*– in the amended specification, in the last paragraph bridging pages 5 and 6, the replacement of "two pairs" with "one pair" and the insertion of "connected in parallel and"*

*Other changes in the amendment are deemed to be not affecting the scope.*
